**ACTION TAKEN REPORT 2020-21**

The Feedback Analysis Committee at the institute is responsible for collecting feedback from various stakeholders, including students, parents and alumni in order to monitor and evaluate the quality of its performance in relation to the curriculum and other curriculum-related issues. The committee is responsible for designing the feedback collection process and using the collected feedback to improve the institute's performance.

Based on their analysis and feedback, the committee has provided the following suggestions for improvement of the institution:

1. Implement an online lecture system.
2. Organize online webinars and workshops.
3. Implement an online feedback mechanism.

Based on the recommendations made by stakeholders at the IQAC meeting, the following actions were taken:

1. In response to the Covid pandemic, teachers were advised to hold online lectures using various platforms and provide e-learning materials to students.
2. Teachers were instructed to organize online webinars.
3. The feedback committee was informed to conduct online feedback sessions.

ACTION TAKEN REPORT 2019-20

The Feedback Analysis Committee at the institute is responsible for collecting feedback from various stakeholders, including students, parents and alumni in order to monitor and evaluate the quality of its performance in relation to the curriculum and other curriculum-related issues. The committee is responsible for designing the feedback collection process and using the collected feedback to improve the institute's performance.

Based on their analysis and feedback, the committee has provided the following suggestions for improvement of the institution:

1. Increase the availability of sports facilities for students.
2. Organize placement camps to help students find employment after graduation.
3. Offer more job-oriented and skill-based programs to prepare students for the workforce.
4. Implement online internal examinations as a temporary measure during the Covid-19 pandemic

In response to the suggestions made by stakeholders the following actions were taken

1. Sports facility: Physical director is advised to take necessary action for providing more facilities to the students.
2. The institution has a placement cell that is responsible for organizing placement camps and contacting reputable companies and organizations. The cell will share information about these camps with students online.
3. The management is developing proposals for job-oriented and skill-based programs.
4. In accordance with guidelines from Shivaji University, Kolhapur internal examinations have been conducted online.

**ACTION TAKEN REPORT 2018-19**

The Feedback Analysis Committee of the institute is responsible for designing and collecting feedback from stakeholders to monitor and evaluate the quality of its performance on curriculum and curriculum-related issues. The feedback is collected from a variety of stakeholders including students, parents and alumni. As students, parents and alumni of Shivraj College we have overall had a positive experience at this institution. Some of the strengths we have observed include:

- **Quality of faculty:** The faculties of Shivraj College are knowledgeable and engaging and they are dedicated to helping students succeed.
- **Availability of resources:** The library, computer lab and other resources on campus are well-maintained and easily accessible to students.
- **Campus culture:** The campus is welcoming and inclusive and there are a variety of extracurricular activities and functions are made available for students to get involved in.

Based on their analysis and feedback, the committee has provided the following suggestions for improvement of the institution:

1. **Student support services:** Some students have reported that it can be difficult to get timely help with academic or personal issues. It would be helpful if the college had more resources or staff dedicated to supporting students in these areas.
2. **Facilities maintenance:** While the campus is generally well-maintained, there have been some issues with broken equipment or facilities in disrepair. It would be helpful if the college prioritized regular maintenance and upkeep of these resources.
3. **Career services:** Many students would benefit from more guidance and support in finding internships or jobs after graduation. It would be helpful if the college had a

more robust career services office or offered more resources for students seeking employment.

In response to the suggestions made by stakeholders the following actions were taken:

1. Students have identified a need for more and better-coordinated student support services at our college. By addressing these issues we can improve the student experience and increase retention and success rates. The institute should also review the resources currently available and consider adding additional services or increasing funding for existing services to meet the needs of all students.
2. The college should prioritize regular maintenance and upkeep of its facilities and equipment to ensure that they are in good condition and available for use.
  - a. To address issues as they arise, the college should consider implementing a system for reporting broken equipment or facilities in disrepair so that these issues can be addressed promptly.
  - b. To prevent future issues, the college should consider investing in preventative maintenance measures, such as regular cleaning and upkeep and in high-quality equipment and materials that are less prone to breakdown or wear and tear.
3. It is important for colleges to provide support and resources for students seeking internships and employment after graduation. A robust career services office can help students develop the skills and knowledge needed to succeed in their chosen field and provide valuable guidance and support as they search for internships and jobs.
  - a. To address the issue of career services, the college should consider expanding the resources and support offered by its career services office. This should include offering more workshops and seminars on topics such as resume writing, job search strategies and networking as well as providing access to job listings and career fairs.
  - b. The college should also consider hiring additional staff or expanding the services of its career services office to provide more one-on-one support and guidance to students.

We hope that by addressing these areas for improvement, the institute can continue to provide an excellent education experience for all of its students.

**ACTION TAKEN REPORT 2017-18**

The Feedback Analysis Committee of the institute is responsible for designing and collecting feedback from stakeholders to monitor and evaluate the quality of its performance on curriculum and curriculum-related issues. The feedback is collected from a variety of stakeholders including-

1. Student's feedback on the internal facilities provided by the institute.
2. Student's feedback on Teachers.
3. Feedback from Alumni.
4. Feedback from Parents.

Based on their analysis and feedback, the committee has provided the following suggestions for improvement of the institution:

1. The institute should consider starting some PG courses and offering final year subjects in areas such as Microbiology and Mathematics.
2. Teachers should be encouraged to adopt innovative techniques and strategies in their teaching methods.
3. The institute should invest in improving infrastructure and facilities on campus.

In response to the suggestions made by stakeholders the following actions were taken:

1. Proposals were submitted to Shivaji University, Kolhapur to offer third year Mathematics and M.Sc. Chemistry courses.
2. Teachers were encouraged to adopt innovative techniques and strategies in their teaching methods.
3. The institute began investing in improving its infrastructure and adding more facilities on campus.
